## **Independent Auditors' Review Report**

The Board and shareholders of Wowprime Corporation,

### **Introduction**

We have reviewed the consolidated balance sheet of Wowprime Corporation and its subsidiaries (both referred to as Wowprime Corporation) as of March 31, 2024 and 2023 and the consolidated statement of comprehensive income, the consolidated statement of changes in equity, the consolidated statement of cash flows, and the notes to consolidated financial statements (including a summary of significant accounting policies) for the three months then ended. The management shall be responsible for preparing the financial statements fairly presented based on the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standards No. 34 "Interim Financial Reporting," endorsed and issued into effect by the Financial Supervisory Commission. We are only responsible for concluding the consolidated financial statements based on the result of the review.

### **Scope**

We conducted the review in accordance with the "Review of Financial Statements" of the Auditing Standards Bulletin No. 2410. The procedures to review the consolidated financial statements include inquiry (mainly with the person in charge of financial and accounting affairs), analytical procedures, and other review procedures. The scope of the review work is significantly smaller than that of the audit work, so we may not be able to detect all significant matters that can be identified through the audit work. Therefore, we cannot express an audit opinion.

### **Conclusion**

According to our review results, the abovementioned consolidated financial statements appropriately present the consolidated financial position of the Wowprime Corporation as of March 31, 2024 and 2023 and the consolidated financial performance and consolidated cash flows for the three months then ended in all material aspects in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Accounting Standards No. 34 "Interim Financial Reporting," endorsed and issued into effects by the Financial Supervisory Commission.

Investment Structure Chart

The consolidated financial statements are presented in the New Taiwan Dollar, which is the Company’s functional currency.

2. Date and Procedure of Adoption of Financial Statements

These consolidated financial statements were approved by the Board on May 9, 2024.

3. Application of New and Revised Standards and Interpretations

- (1) The International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), Interpretations (IFRIC) and Interpretations (SIC) (hereinafter referred to as “IFRS Accounting Standards”) recognized and issued by the Financial Supervisory Commission (hereinafter referred to as the “FSC”) are applied for the first time.

The application of revised IFRS Accounting Standards approved and issued by the FSC will not result in significant changes in the accounting policies of the consolidated company.

- (2) IFRS Accounting Standards issued by IASB but not approved and effective by the FSC

| New/amended/revised criteria and interpretation  | Effective date of IASB release (note 1) |
|--|---|
| Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture” | Undetermined                            |
| IFRS 17 “Insurance Contracts”  | January 1, 2023                         |
| Amendments to IFRS 17  | January 1, 2023                         |
| Amendment to IFRS 17 “Initial application of IFRS 17 and IFRS 9 - comparative information”                               | January 1, 2023                         |
| IFRS 18 “Presentation and Disclosures of Financial Statements”   | January 1, 2027                         |
| Amendments to IAS 21 “Lack of Exchangeability”   | January 1, 2025 (Note 2)                |

Note 1: Unless otherwise noted, the above-mentioned new/ amended/ revised standards or interpretations shall come into effect during the annual reporting period starting after that date.

Note 2: Applicable to the annual reporting period beginning after January 1, 2025. Upon the initial application of the amendment, the comparison period cannot be restated, and the effects shall be recognized as the exchange difference of foreign operations (as appropriate) and relevant assets and liabilities affected under the retained earnings or equity on the date of initial application.

- a. Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets between an Investor and its Associate or Joint Venture”

According to the amendments, if the consolidated company sells or invests assets in an affiliate (or joint venture), or the consolidated company loses control

of a subsidiary but retains material influence (or joint control) over the subsidiary, the consolidated company recognizes all gains or losses arising from the transaction when the abovementioned assets or subsidiary comply with the definition of “business” in IFRS 3 “Business Combinations.”

In addition, if the consolidated company sells or invests assets in an affiliate (or joint venture), or the consolidated company loses control of a subsidiary in a transaction with an affiliate (or joint venture), If the aforementioned assets or the former subsidiary but retains material influence (or joint control) over the subsidiary, the consolidated company only recognizes the gains or losses arising from the transaction to the extent of the investor’s equity irrelevant to the affiliate (or joint venture) when the abovementioned assets or subsidiary do not comply with the definition of “business” in IFRS 3 “Business Combinations”; that is, the consolidated company’s share of the gain or loss shall be eliminated.

b. IFRS 18 “Presentation and Disclosures of Financial Statements”

IFRS 18 will supersede IAS 1 “Presentation of Financial Statements,” and the main changes of the standard include:

- The income statement shall divide items of income and expenses into operating, investing, fundraising, income tax, and suspended operation categories.
- The income statements shall report the subtotal and total of operating profit or loss, fundraising, profit or loss before tax, and profit or loss.
- Provide guidelines to enhance the summarizing and separation requirements: The consolidated company shall identify assets, liabilities, equity, gains, expenses, and cash flow from individual transactions or other matters and carry out the classification and summary based on the common characteristics to allow the single line items reported in the major financial statements have at least one similar characteristic. Items with different characteristics shall be separated in the major financial statements and notes. The consolidated company may only mark such items as “others” when it is unable to find a more informative name.
- Addition of disclosures of performance measurement defined by the management: When the consolidated company is carrying out public communications other than financial statements and when users of financial statements are communicating with the management from the perspective of

a certain aspect of the overall financial performance of the consolidated company, relevant information on the performance measurement defined by the management shall be disclosed in a single note in the financial statements, including the description of the measurement, the calculation method, the reconciliation of it and the subtotal or total stipulated in the IFRSs, and the effects of relevant reconciliation items on income tax and non-controlling interest.

Except for the abovementioned effects, if the consolidated Company continues to evaluate the impact of other standards and amendments to the interpretation of the financial status and financial performance as of the date of approval of the consolidated financial statements for publication, the relevant impacts shall be disclosed when the evaluation is completed.

#### 4. Summary of Significant Accounting Policies

##### (1) Declaration of Compliance

The consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 “Interim Financial Reporting” approved and issued by the FSC. The consolidated financial statements do not contain all IFRS Accounting Standards disclosures required by the entire annual financial statements.

##### (2) Basis of Preparation

In addition to financial instruments measured at fair value and net defined benefit liabilities recognized at the present value of defined benefit obligations less the fair value of planned assets, the consolidated financial statements are prepared based on historical cost.

Fair value measurement is divided into levels 1 to 3 according to the observability and importance of relevant input values:

- a. Level 1 input value: refers to the quoted price (unadjusted) of the same assets or liabilities available in the active market on the measurement date.
- b. Level 2 input value: refers to the directly (i.e., price) or indirectly (i.e., derived from price) observable input value of assets or liabilities other than the quotation of level 1.
- c. Level 3 input value: refers to the unobservable input value of assets or liabilities.

(3) Basis of Consolidation

The consolidated financial statements include the financial statements of the Company and the entities (subsidiaries) controlled by the Company. In the consolidated statement of comprehensive income, the operating income of the acquired or affiliated subsidiaries since the acquisition date or until the disposal date has been included. The financial statements of the subsidiaries have been adjusted so that their accounting policies are consistent with those of the consolidated Company. In the preparation of the consolidated financial statements, all transactions, account balances, gains and expense losses among the entities have been eliminated. The total comprehensive income of the subsidiaries is attributable to the owners and is the non-controlling interest of the Company, even if the non-controlling interest becomes a loss.

For details of subsidiaries, shareholding ratio and business items, please refer to Note 12, Table 6 and Table 7.

(4) Other Significant Accounting Policies

Except for the following notes, please refer to the Summary of Significant Accounting Policies in the consolidated financial report of 2023.

a. Criteria for distinguishing between current and non-current assets and liabilities

Current assets include:

- (a) Assets held primarily for trading purposes;
- (b) Assets expected to be realized within 12 months of the balance sheet date; and
- (c) Cash and cash equivalents (other than those restricted from being exchanged or settled more than 12 months after the balance sheet date).

Current liabilities include:

- (a) Liabilities held primarily for trading purposes;
- (b) Liabilities to be settled within 12 months after the balance sheet date (even if a long-term refinancing or rearranged payment agreement is completed after the balance sheet date, and before the approval for the publication of the financial, they are classified as current liabilities); and
- (c) Liabilities for which the Company has no substantive right to defer the settlement period to at least 12 months after the balance sheet date on the balance sheet date.

Current assets or liabilities that are not classified as current assets or liabilities are classified as non-current assets or non-current liabilities. When the terms of liabilities may be settled by transferring the equity instruments of the consolidated company based on the option of the counterparty of the transaction, if the consolidated company classifies the option as equity instruments, such terms have no effects on the classification of current or non-current liabilities.

b. Defined benefits and post-retirement benefits

The pension cost of the interim period is calculated based on the pension cost rate determined by actuarial calculation from the end of the previous year to the end of the current period and adjusted for major market fluctuations of the current period, as well as major plan amendments, repayments or other major one-off events.

c. Income tax expenses

Income tax expenses are the sum of current income tax and deferred income tax. The income tax of the interim period is assessed on an annual basis, and the profit before tax of the interim period is calculated at the tax rate applicable to the expected annual total earnings.

5. Main Sources of Uncertainty in Significant Accounting Judgments, Estimates and Assumptions

When adopting accounting policies, the consolidated company's management must make judgments, estimates and assumptions that are based on historical experience and other factors that are not readily apparent from other sources. Actual results may differ from estimates.

When the consolidated company develops significant accounting estimates, the possible impact of inflation and market interest rate fluctuations is included in consideration of cash flow estimates, growth rates, discount rates, profitability, and other relevant significant estimates. The management will continue to examine estimates and basic assumptions.

Main Sources of Uncertainty in Estimates and Assumptions

Impairment Loss of inventories

The net realizable value of inventories is the estimated selling price in the normal business process less the estimated cost of completion and the estimated cost of sales. These estimates are evaluated based on the current market conditions and historical sales

of similar products; changes in market conditions may materially affect the estimated results.

The credit risk of bank deposits and other financial instruments is measured and monitored by the respective financial departments of the consolidated company. As the counterparties of the consolidated company are banks with good credit and financial institutions and companies/organizations of investment grade or above, there is no major concern of default, and there is no significant credit risk. The consolidated company's current credit risk rating system and the total carrying amount of debt instrument investment of different credit ratings are as follows:

| Credit rating | Definition   | Recognition basis of expected credit losses (ECL) | ECL rate | Total carrying amount as of March 31, 2024 | Total carrying amount as of December 31, 2023 | Total carrying amount as of March 31, 2023 |
|---------------|--|---|----------|--|---|--|
| Normal        | The debtors' credit risk is low, and they have sufficient ability to settle the contractual cash flows | 12-month ECL                                      | 0 %      | <u>\$3,330,088</u>                         | <u>\$3,132,469</u>                            | <u>\$2,279,309</u>                         |

The consolidated company mostly collects cash (or credit card) for sales customers, except for accounts receivable from partial locations in stores or department stores and cooperation with other industries; in such cases, the credit period is based on the

negotiation between both parties, and the credit period is 30 to 90 days. When determining the recoverability of accounts receivable, the consolidated company considers any changes in the credit quality of the accounts receivable from the original credit grant date to the balance sheet date.

The consolidated company shall recognize the loss allowance of accounts receivable according to lifetime ECL. The lifetime ECL is calculated by the preparation matrix, which considers the past default records of customers and their current financial situation, the industrial economic situation, as well as the GDP forecast and industrial outlook. As the historical experience of credit loss of the consolidated company shows that there is no significant difference in the loss pattern of different customer groups, the preparation matrix does not further distinguish customer groups and only uses the overdue days of accounts receivable to determine the ECL rate.

The consolidated company measures the loss allowance of notes receivable and accounts receivable according to the preparation matrix as follows:

(3) Important lease-in activities and terms

The consolidated company rented certain buildings for offices and retail stores with a lease period ranging from 2 to 8 years. The consolidated company has no preferential right to acquire the leased buildings upon the termination of the lease term.

The consolidated company has rented a large amount of properties to set up stores due to the retail business. The lease terms are negotiated by the management of business departments, including various lease payment terms. To reduce the fixed costs of the newly established stores or to control the flexibility of profit and operations, the consolidated company has included variable payments in the lease terms. The variable lease payment terms of the consolidated company vary significantly:

- a. The majority of the variable payments are based on a specific percentage of store turnover;
- b. Certain variable payment terms include minimum or maximum limit terms.

The variable payment terms may incur higher rental costs for the stores with higher turnover; however, such terms are helpful to the consolidated company's profit management.

The consolidated company expects that the proportion of future variable rental expenses to store sales will be equivalent to the current period.

The consolidated company has selected to apply the recognition exemption to certain leases of dormitories, warehouses, and office equipment that qualify as short-term leases and computer equipment leases that qualify as low-value asset leases to not recognize right-of-use assets and lease liabilities for such leases.

On March 29, 2023, the Company issued 7 thousand units of NTD-denominated unsecured convertible corporate bonds with an interest rate of 0% at the price of 101% par value; the total principal was NT\$700,000 thousand.

The holder has the right to convert each unit of corporate bond into a common share of the Company at NT\$264.7 per share. The conversion period is from June 30, 2023 to March 29, 2028.

For the convertible corporate bonds, if the closing price of the Company's common share exceeds the then conversion price of convertible corporate bonds by 30% for 30 consecutive days from June 30, 2023 to March 29, 2028, or if the balance of the outstanding convertible corporate bonds is less than 10% of the total par value initially issued, the Company may recover the bonds within 30 days afterward.

For the convertible bonds, March 29, 2026 is the sell-back base day for bondholders to sell back the convertible corporate bonds in advance. Bondholders may require the Company to redeem the convertible corporate bonds in cash based on the par value of bonds plus the interest compensation.

The convertible corporate bonds include liability and equity components, and the equity component is presented as capital surplus - stock options under equity. The effective interest rate of the initial recognition of liability components is 2%.

- (a) Such capital surplus may be used to make up for deficits and may be used to distribute cash or capitalize on capital stock when the Company has no losses. However, the capitalization shall be limited to a certain percentage of the Company's paid-in capital each year.

(3) Retained earnings and dividend policy

According to the earning distribution policy in the Articles of Incorporation, if the Company records earnings from the final account, after paying taxes and compensating cumulative losses according to the law, the Company shall appropriate 10% as the statutory surplus reserve; however, this shall not apply when the statutory surplus reserve has reached the paid-in capital of the Company. For the remaining earnings, the Company shall appropriate or reverse special surplus reserve according to the requirements of laws and regulations. Shall there be remaining balances, the Company shall combine such balances with the cumulated undistributed earnings, and the Board shall prepare the proposal for earning distribution and submit it to the shareholders' meeting for the resolution of distributing dividends and bonuses to shareholders when by way of new share issuance. The Company distributes dividends and bonuses or the entire or partial legal reserve and capital surplus. If by way of cash distribution, the Board is authorized to obtain the consent of over half of the attending Director at a Board meeting attended by over two-thirds of Directors and report it to the shareholders' meeting. For the remuneration distribution policy for employees and

Directors stipulated in the Articles of Incorporation of the Company, please refer to Note 29(7) remuneration of employees and remuneration of Directors.

The Company provides a special reserve for the net amount of the deduction of other equity accumulated in the previous period. If the undistributed earnings of the previous period are insufficient for appropriation, items other than the net profit of the period plus net profit after tax shall be included in the undistributed earnings of the period.

The Company is in the F&B service industry and in the growth period within the life cycle of an enterprise. The Company has stable profits and a healthy financial structure; therefore, apart from the requirements of the Company Act and the Articles of Incorporation of the Company, the Company will determine the dividend distribution method each year for earning distribution based on the Company's capital planning and operating achievements. However, the principle is to adopt the policy of stable and balanced dividends, and the Board shall formulate the earning distribution method (cash dividend or stock dividend) and amount before the annual shareholders' meeting each year based on the business achievements, financial conditions, and capital planning; the ratio of cash dividend shall not be lower than 20% of the total dividend. However, the ratio of cash dividends to shareholders may be adjusted through a resolution made by the shareholders' meeting based on the actual profits and capital requirements of the year.

The legal reserve shall be appropriated until the balance reaches the paid-in capital stock of the Company. The legal reserve may be used to offset losses. If the legal reserve exceeds 25% of the paid-in capital, when the Company has no losses, the portion can be capitalized or distributed in cash.

The proposal for the 2023 earnings distribution discussed at the Board meeting on March 7, 2024 is as follows:

|                                | 2023         |
|--------------------------------|--------------|
| Legal reserve                  | \$ 139,439   |
| Legal reserve                  | \$ 22,794    |
| Cash dividends                 | \$ 1,232,155 |
| Cash dividend per share (NT\$) | \$ 14.94     |

The Board had resolved to distribute the abovementioned cash dividends on March 7, 2024. The remaining earning distribution items for 2024 are to be resolved by the annual shareholders' meeting convened on June 6, 2024.

The Company held its shareholders' meeting on June 15, 2023, and the proposal for the 2022 earning distribution is as follows:

|                                 | <u>2022</u> |

(7) Remuneration of employees and remuneration of Directors and supervisors

According to the Articles of Incorporation, if the Company records earnings, it shall appropriate 0.1% to 10% as the employee remuneration and no more than 1% of Director remunerations; however, if the Company still has cumulative losses, it shall preserve the amount for compensation. The proposal for employee remuneration and Director remuneration shall be resolved by the Board regarding whether to distribute in stock or case. The distribution targets may include employees of subsidiaries who fulfill certain conditions, and the results shall be reported to the shareholders' meeting.

The estimated remuneration of employees and remuneration of Directors for the three months ended March 31, 2024 and 2023 are as follows:

Estimation percentage

|  | For the three<br>months ended<br>March 31, 2024 | For the three<br>months ended<br>March 31, 2023 |
|--|---|---|
| Remuneration of employees                    | 0.1%  | 0.1%  |

| Remuneration of Directors and<br>supervisors | -   | -   |

If there is any change in the amount of the annual consolidated financial statements after the publication date, it will be treated as a change in accounting estimates and will be adjusted and accounted for in the following year.

The remuneration of employees and remuneration of Directors for 2023 and 2022 were resolved by the Board on March 7, 2024 and March 23, 2023, respectively, as follows:

Estimation percentage

|                           | 2023 | 2022 |
|---------------------------|------|------|
| Remuneration of employees | 0.1% | 0.1% |

|---------------------------|----------|--------|
| Remuneration of employees | \$ 1,659 | \$ 480 |
| Directors' remuneration   | -        | -      |

There is no difference between the actual amount of remuneration of employees and remuneration of Directors and supervisors paid for 2023 and 2022 and the amount recognized in the consolidated financial statements for 2023 and 2022.

For information on remuneration of employees and remuneration of Directors resolved by the Board, please visit the "Market Observation Post System (MOPS)" of the Taiwan Stock Exchange for inquiries.

30. Income tax for continuing operations

(1) Income tax recognized in profit or loss

(3) Approval of income tax

The profit-seeking business income tax returns of the Company, WPT, Cheerpin, Wowfresh, and Jiechuang (subsidiaries) up to 2022 have been approved by the tax authorities. Tai Pin Holding Ltd., Hoppime Ltd., and Wowprime Ltd. are registered in Seychelles, Cayman Islands, and Samoa, respectively, and are not subject to income tax. Therefore, they are not subject to profit-seeking business income tax upon approval by the authority. As of March 31, 2024, the subsidiaries in Mainland China have estimated the tax payable liability and income tax expense subject to local laws and regulations.

31. Earnings per share

Unit: NT\$ per share

|                            | For the three<br>months ended<br>March 31, 2024 | For the three<br>months ended<br>March 31, 2023 |

(3) Financial risk management objectives and policies

The consolidated company's major financial instruments include cash and cash equivalents, accounts receivable, accounts payable, and lease liabilities. The consolidated company's financial management department provides services for different business departments, coordinates the operations in the domestic and international financial markets, and monitors and manages the financial risks related to the consolidated company's operations through internal risk reporting that analyzes exposures based on the level and breadth of risks. Such risks include market risk (including exchange rate risk and interest rate risk), credit risk and liquidity risk.

a. Market risk

The main financial risks assumed by the consolidated company' due to its operating activities are the risk of changes in foreign currency exchange rates (see (1) below) and the risk of changes in interest rates (see (2) below).

(a) Exchange rate risk

The consolidated company engages in purchases denominated in foreign currencies, which in turn generate monetary assets (bank deposits) and monetary liabilities denominated in non-functional currencies, giving rise to the exchange rate change exposure of the consolidated company.

Please refer to Note 38 for the carrying amount of monetary assets and monetary liabilities denominated in non-functional currencies of the consolidated company (including monetary items denominated in non-functional currencies written off in the consolidated financial statements) on the balance sheet date.

Sensitivity analysis

The consolidated company is mainly affected by fluctuations in the exchange rate of USD.

The following table details the sensitivity analysis of the consolidated company when the exchange rate of NTD (functional currency) increases and decreases by 1% against the respective relevant foreign currencies. The 1% sensitivity rate is used in the Group's internal reporting of exchange rate risk to key management personnel and represents management's assessment of the reasonable and possible range of changes

in foreign currency exchange rates. The positive amount in the following table represents the increase in net profit before tax when NTD depreciates by 1% against the respective relevant currencies; when NTD strengthens by 1% against the respective relevant currencies, the impact on net profit before tax will be the equivalent negative amounts.

|                | Impact of USD                             |   |
|----------------|---|---|
|                | For the three months ended March 31, 2024 | For the three months ended March 31, 2023 |
| Profit or loss | \$ 5,490                                  | \$ 4,416                                  |

The consolidated company's sensitivity to exchange rates increased during the current period, mainly due to an increase in bank deposits denominated in USD.

(b) Interest rate risk

As the entities in the consolidated company borrow funds at fixed and floating interest rates at the same time, interest rate risk exposure arises. Regarding the consolidated company's bank deposits, the interest rate of bank deposits has insignificant fluctuation; therefore, the consolidated company's income and operating cash flows are less affected by changes in market interest rates.

The carrying amounts of the consolidated company's financial assets and financial liabilities with exposure to the interest rate risk on the balance sheet date are as follows:

|                               | March 31, 2024 | December 31, 2023 | March 31, 2023 |
|-------------------------------|----------------|-------------------|----------------|
| Fair value interest rate risk |                |                   |                |
| Financial assets              | \$ 3,687,136   | \$ 3,491,610      | \$ 2,416,227   |
| Financial liabilities         | 4,317,218      | 4,462,159         | 4,887,713      |
| Cash flow interest rate risk  |                |                   |                |
| Financial assets              | 2,135,084      | 2,228,180         | 3,028,594      |

Sensitivity analysis

The following sensitivity analysis is based on the interest rate risk exposure of non-derivatives on the balance sheet date.

The consolidated company reports an increase or decrease of 0.1% to its management on reasonable risk assessment of changes in interest rate.

If other conditions remain unchanged without considering interest capitalization and the interest rate increases by 0.1%, the consolidated company's net profit before tax for the three months ended March 31, 2024 and 2023 will increase by NT\$534 thousand and NT\$757 thousand, respectively.

b. Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations, resulting in a financial loss of the consolidated company. As of the balance sheet date, the consolidated company's maximum credit risk exposure that may arise from a financial loss due to a counterparty's failure to perform its obligations and the consolidated company's provision of financial guarantees is mainly derived from the carrying amount of the financial assets recognized in the consolidated balance sheet.

Counterparties of accounts receivable cover extensive customers in different industries and geographical areas. The Company continuously evaluates the financial condition of customers with accounts receivable.

c. Liquidity risk

The consolidated company manages and maintains a sufficient position of cash and cash equivalents to support Group operations and mitigate the impact of cash flow fluctuations. The consolidated company's management supervises the use of bank financing limits and ensures compliance with contract terms.

Bank borrowings are an important source of liquidity for the consolidated company. For the unused financing limit of the consolidated company, please refer to the description of the financing limit below:
